Mr. Schardein,

There has been an issue raised by the owner of parcel 610-10-1118-000 as to the assessment of this property. The issue centers around whether or not the parcel is buildable or not. I am writing to request a determination from the zoning department as to whether or not PIN #610-10-1118-000 is a buildable lot based on the current zoning and various mountainside and steep slope overlays that exist on the property. Thank you for your attention to this matter.
